APPLICATION

Applications must be completed (and typewritten whenever possible) by the petitioner (which may be the building owner or company officer, architect, engineer, etc) and signed by the building owner or company officer. **Where multiple projects exist, separate applications must be submitted for each project.**

MAKING THE REQUEST

The request portion of the application form have been pre-typed and contain a clear statement of the issue that the Building Official is requested to address. Please indicate the date the extension is requested for (not to exceed 6 months from the date of expiration of plan review pursuant to Section 18.05.060 L.B.M.C.)

JUSTIFICATION OR FINDING OF EQUIVALENCY

The justification portion of the application form must state the basis for the request. In addition, **all applications shall have a letter attached** describing the scope of the project, substantiating the claim of impracticality or hardship, and elaborating on the reason and justification for the granting of the request. The Department must receive evidence showing unusual circumstances exist that prevents the applicant from securing the permit prior to the expiration of plan check. Circumstances such as, but not limited to, financial hardship, contracting issues with design consultants or contractors, seasonal weather conditions, real estate market fluctuation, health conditions, etc. are typically not sufficient enough reasons for granting an extension of a project. These circumstances have generally been accounted for and are the basis for the one-year plan check time established by the Department. The request letter shall be addressed to:

Where additional information or clarification will be necessary for the review, staff will contact applicants.

The initial **non-refundable filing fee** to review the application is set in the schedule of fees and charges established by City Council resolution. This fee must be collected and paid with all applications requesting action by the Building Official.
