INSTRUCTIONS

1. Select one qualifying product. Qualifying product must be Energy Star Rated and new. Proof of purchase (i.e., receipt) and a copy of the product's specification or documentation will be required.
2. Owner must submit a completed and signed Residential Energy Efficiently Rebate application at the time the permit is obtained.
3. The permit must be obtained by a licensed contractor at the City of Long Beach's Permit Center located at 333 W. Ocean Blvd., 4th Floor, Long Beach, CA 90802.
4. Install the qualifying product using a licensed contractor.
5. Obtain inspection approval for the installation of the qualifying product.

TERMS AND CONDITIONS

The terms and conditions of the Residential Energy Efficiency Rebate Program are as follows:

1. The rebate program is limited to residential owners and the qualified product must be installed in residential dwelling units (i.e., single-family home, condominium or live/work unit). No more than one rebate and no-cost permit will be allowed per eligible residential owner (e.g., one residential owner with multiple dwelling units is limited to a total of one rebate and one no-cost permit).
2. The rebate program is limited to one qualifying energy efficiency product as described on the "List of Qualifying Product" section of Information Bulletin BU-026 Residential Energy Efficiency Rebate Program. Product must be Energy Star Rated.
3. The no-cost permit is limited to the installation of the one qualifying product. All other work shall require a separate permit and the resulting plan check/permit fees will be assessed. The permit must be obtained and the product installed by a licensed contractor.
4. The rebate amount shall not exceed the purchase price of the qualifying product or \$500, whichever is lower.
5. The rebate program period is from April 19, 2010 through October 1, 2012 or sooner when allocated funds are no longer available. Any products ordered or purchased, permits obtained, product installed or final inspection approval received prior to April 19, 2010 or after October 1, 2012 (or the date when allocated funds are no longer available) do not qualify for a rebate. The rebate program is subject to funding availability and are provided on a first come, first serve basis, as determined by the permit application date. Rebates for this program are for a limited time only and may be terminated without prior notice.
6. Resale products, products leased, rebuilt, rented, received from warranty insurance claims, exchanged, won as a prize, or new parts installed in existing products do not qualify.
7. The City reserves the right to reject any incomplete rebate applications. Incomplete applications, ineligible owners, non-qualifying products, or missing or inaccurate proof of purchases (i.e., receipt) as determined by the Department will not be processed and no rebates will be issued. If approved, rebates will be issued after approval of final inspection for the installation of the qualified product. A rebate check will be mailed to the residential owner at the installation address within 8 weeks. Rebate checks are void if not cashed within 90 days of issuance and cannot be reissued. The Department will not be held responsible for any mail or check lost by the U.S. Postal Service or any other delivery service carriers.
8. The selection of the qualifying product, selection of licensed contractor, manufacturer, dealer, supplier and/or installer, and purchase, installation and ownership/maintenance of the qualifying product are the sole responsibility of the residential owner.
9. The City makes no representations regarding manufacturers, dealers, contractors, materials or workmanship. Furthermore, the City makes no warranty, whether express or implied, including without limitation the implied warranties of merchantability and fitness for any particular purpose, use, or application of the products or measures.
10. The residential owner agrees the City has no liability whatsoever concerning (a) the quality, safety and/or installation of the products or measures, including their fitness for any purpose, (b) the estimated energy savings of the products or measures, (c) the workmanship of any third parties/licensed contractors, (d) the installation or use of the products or measures including, but not limited to, effects on indoor pollutants, or (e) any other matter with respect to the Residential Energy Efficiency Rebate Program. The residential owner waives any and all claims against the City, its parent companies directors, officers, employees, or agents, arising out of activities conducted by or on behalf of the City in connection with my application for any rebate(s) under the Residential Energy Efficiency Rebate Program. Without limiting the generality of the foregoing, none of such parties shall be liable hereunder for any type of damages, whether direct, or indirect, incidental, consequential, exemplary, reliance, punitive or special damages, including damages for loss of use, regardless of the form of action, whether in contract, indemnity, warranty, strict liability or tort, including negligence of any kind.
11. The residential owner is responsible for meeting all program requirements and complying with any state/county/city governments, historic requirements, property owner and/or homeowners association requirements (if any) in the residential owner's area regarding local conditions, restrictions, codes, ordinances, rules, and regulations concerning the installation of the qualified product.
