Atlantic Avenue Sidewalk - Median - Street

There is a renaissance taking place on Atlantic Avenue called the Atlantic Avenue Improvement Project. This project will bring a new vitality to the area and provide area residents, motorists and pedestrians with a more inviting and stimulating environment. Encompassing the North Village commercial corridor on Atlantic Avenue between 56th Street and 59th Street, the Atlantic Avenue Improvement Project will enhance another diverse neighborhood in the City of Long Beach.

To reach completion, ambitious projects such as the Atlantic Avenue Improvement Project require a creative vision, a resolute team and most important, sufficient funding. Fortunately for the residents surrounding this area, the combined resources of Long Beach Council District 8, Council District 9, the City of Long Beach Departments of Development Services and Public Works, the former Long Beach Redevelopment Agency, and the Los Angeles County Metropolitan Transportation Authority have made this important corridor project a reality.
