

Substantiate compliance with applicable Appendix M Performance Standard

If you would like to receive this questionnaire in MS Word format, please email Frances Ho at fho@placeworks.com.

- Please confirm that the libraries in the table below are the closest to the Project Site (see attached Figure 2, *Local Vicinity*) and would likely serve future residents in the Project Site.

Yes, these are the closest libraries to the Project Site.

Also, please summarize existing library facilities and resources (library building square footages, collection volume, capacity), and special services provided (i.e., computer labs, summer reading programs, tutoring) to residents of the City of Long Beach in the table.

Branch	Location	Facilities/Resources	Special Services
Main Library	101 Pacific Avenue Long Beach, CA 90822	135,000 square feet; 320,500 volumes; auditorium and meeting rooms	public access computers; Family Learning Center; Information Center for People with Disabilities; government publications collection; The Studio, makerspace and learning lab; Miller Room, art resource center; Summer Reading Program
Burnett Neighborhood Library	560 E. Hill Street Long Beach, CA 90806	7500 square feet; 50,000 volumes; community room	public access computers; Family Learning Center; Summer Reading Program
Mark Twain Neighborhood Library	1401 E. Anaheim Street Long Beach, CA 90813	16,000 square feet; 65,000 volumes; community room; study rooms	public access computers; Family Learning Center; Summer Reading Program; Khmer collection
Dana Neighborhood Library	3680 Atlantic Avenue Long Beach, CA 90807	6800 square feet; 45,000 volumes; community room	public access computers; Family Learning Center; Summer Reading Program
Other (if relevant):

2. Are existing library facilities and resources (books, computers, etc.) adequate for the system's service population? If not, what is the estimated deficit of space and/or volumes?

Yes, existing facilities and resources are adequate.

3. What factors or standards are used to estimate library facility and resource requirements (e.g. square feet of library facility floor area per capita and book volumes per capita)?

Square feet of facility per capita is a factor. Also considered are specialized spaces within the facility such as public space, collection space and electronic workstation space. Other factors are book volumes per capita, population served per FTE, circulation per capita, program attendance per capita and public access computer use per capita.

4. Please summarize any additional resources and/or facilities needed to provide library services for future development under the Proposed Project.

N/A

5. Please describe any existing plans to expand library service and/or facilities, if any, that would serve the City. Please also describe the anticipated funding sources for those improvements.

A new Main Library is proposed as a part of the larger development of a new Civic Center. Funding is provided by a public private partnership with Plenary-Edgemoor Civic Partners and the City of Long Beach.

6. Please provide any additional comments and/or information regarding the provision of library services under the Proposed Project.

N/A
